MUSIC FOR NON-MUSICIANS

This weekend is open to three categories of person:

1. The untrained and aspiring musician;
2. The trained and incompetent musician;
3. The competent musician who feels out of touch with the quality of music.

Music is a quality organised in sound. We all have access to that quality although our experience in the form of musical organisation and skill in producing sound may be limited.

The question is, how do we make contact with that quality? The only qualification for the weekend is a genuine wish to be involved in music. A complete lack of expertise upon any musical instrument is no obstacle at all. Any one who would like to have fun with music is eligible. Work will focus on relaxation and attention, and the musical work will include percussion, occarinas and voices. So, we may add a fourth category of person:

4. The tone deaf with no sense of rhythm

The weekend is directed by Robert Fripp and will begin on the evening of Friday August 2nd and continue until early in the afternoon of Sunday August 4th. Those interested should contact:

MUSIC WEEKEND

A.S.C.E.
Rt. 1, Box 279
Charles Town, W.V. 25414
(304)725-4437 or 725-6248
