

August, 14 1986

Dear Crafty Guitarist,

This is a form letter for those of you living in the Washington area, and wishing to continue with the Guitar Craft format by rehearsing together perhaps once a week (nothing is compulsory, but this might be a reasonable standard for at least a group meeting to be arranged with some attendance) and making plans to manage gigs in the Washington Metropolitan area. After returning from Guitar Craft XVI, Robert's notion of the League surviving for 200 years is an intriguing one, and it might be interesting to give it a go. Also there is also a section of the League formed in New York which would entertain the idea of an available group of some kind stretching the Northeast Coast. All and any feedback is appropriate. I think the important item is to get together and form some sort of moving repertoire. For anyone interested, please contact me by phone, (703)430-3794 or write to: Rt. 2 Box 273 Sterling, VA 22170.

Sincerely,

Robert Jewell
